a digital Solid Waste reuse plAtform for BalkaN

26 July 2018

Presentation at an international Conference

The main aspects of SWAN Project were presented at the 6th International Conference on Sustainable Solid Waste Management, which took place in Naxos island on 13-16 June 2018, emphasizing the benefits that can be achieved by its implementation.

The Conference had great international participation. More than 600 participants coming from more than 100 countries, including industry professionals, government executives, municipalities, research and educational institutions and scientists, travelled to Naxos and had the opportunity to exchange views and information on the latest ideas and technical experience in all areas of solid waste management.

The seven SWAN partners, namely EDSNA, Greek Ministry of Environment and Energy, University of Aegean, Albanian Ministry of Tourism and Environment, ILIRIA NGO, Bulgarian Industrial Association and Cyprus University of Technology were represented by the lead partner, who underlined their effort to create an integrated digital and industrial ecosystem that will develop locally and manage transnational value chains for solid waste reuse.

Poster

The poster features the Interreg Balkan-Mediterranean S.W.A.N. logo at the top. Below it, the text reads 'S.W.A.N. a digital Solid Waste reuse plAtform for BalkaN' with the website 'https://www.swan-interreg.com'. A central graphic shows a tree with roots and branches, where the roots are labeled with the countries: GREECE, ALBANIA, BULGARIA, and CYPRUS. The tree's trunk and branches are labeled 'RECYCLE', 'REDUCE', and 'REUSE'. To the right of the graphic, the 'PARTNERSHIP' section lists the lead partner (EDSNA) and seven other partners (P1-P7) from Greece, Albania, Bulgaria, and Cyprus. At the bottom, it states the total budget (ERDF: 822.800 €, project budget: 968.000 €), the duration (September 2017-September 2019), and that the project is co-funded by the European Union and national funds.
